# NANOSTRING TECHNOLOGIES

Another Solid Quarter Out of the Gate; 2014 Catalysts

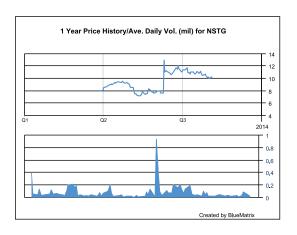

- **Bottom Line:** NSTG delivered its second consecutive top-line beat as a public company. Our forecasts are largely unchanged, and we continue to rate the stock Outperform with a \$15 price target, which represents ~47% upside as of 11/5 market close.
- Cancer research and biopharma drive strength. NanoString reported 3Q13 revenue of \$8.4M, above our \$7.9M forecast. Revenue grew 39% y/y. Cancer researchers and biopharma continue to be the key target markets for NanoString's proprietary technology. Consumable pull-through remains solid and is tracking >\$100K on an average annualized basis.
- nCounter Elements early access program on track. NSTG's early access program for its new nCounter Elements chemistry remains on track following the introduction at the American Association for Clinical Chemistry (AACC) in 3Q13. The technology allows researchers to independently develop multiplexed genomic assays that can be translated into clinical diagnostics tests. Indeed, 15 users across 3 continents have signed up for the program, and most early adopters have been medical diagnostic companies looking to use the technology to create lab develop tests (LDTs). The addressable market for highly complex labs is ~9,000 labs.
- nCounter placements ex-U.S. NTSG initiated a Germany-based decision impact study during the quarter. Ten separate sites are enrolling patients. With prior placements in Spain, we expect to see data from these studies by 2H14.
- Prosigna commerical launch a 1Q14 event. We continue to expect the domestic, commercial launch of Prosigna in 1Q14 following the FDA's approval of the assay earlier this year. NSTG has already submitted an application for a z-code to McKesson (OP), which kick-started the process for gaining a favorable coverage decision with Palmetto and Noridian (Medicare administrative contractors).
- Plenty of visible catalysts in 2014. We see a number of catalysts for NTSG in 2014 including the aforementioned U.S. launch of Prosigna; favorable coverage decisions; incremental data for decision impact studies; and positive guideline recommendation(s), for examples. We believe this incremental newsflow could build investor awareness about the company.

# **INVESTMENT THESIS**

We rate Seattle, Washington-based NanoString Technologies (NanoString) with an Outperform rating and apply a \$15 price target to it. The company's proprietary technology fills an important role in the research market by enabling mid-density gene analysis in formalin-fixed, paraffin embedded (FFPE) samples. This capability translates readily to oncology diagnostics, in which NanoString's nCounter Analysis System promises to enable complex molecular testing in a decentralized setting. Our Outperform rating reflects a view that NanoString's revenue growth opportunities, in both life science research and clinical diagnostics, are underappreciated at current levels.

# **VALUATION**

Our 12-month price target for NSTG reflects an enterprise value (using projected levels of debt and cash) that is ~3.5x our revenue forecast for the twelve months ended June 2015. We prefer revenue multiples for companies not yet meaningfully profitable. This multiple is consistent with the life science tools and diagnostics peer group median EV/FTM revenue, which we believe appropriately balances NSTG's greater revenue growth prospects with commercialization risks in diagnostics.

## RISKS TO VALUATION

Risks to our price target for NSTG include, but are not limited to: Prosigna commercialization uncertainty in both the U.S. and Europe, competition, and tightening research budgets. While we model the company raising equity in 2014 to help fund operations, its ability to tap the equity markets or obtain additional funding may be a potential uncertainty.

# **Disclosures Appendix Analyst Certification**

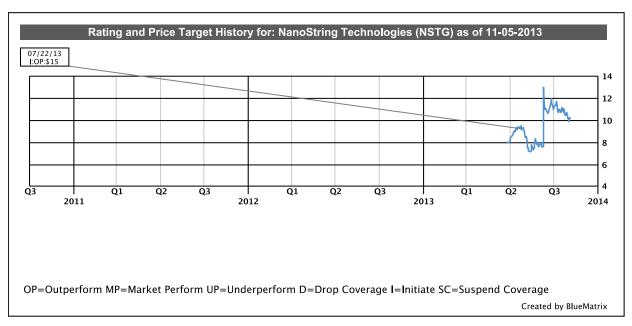

I, Dan Leonard, certify that the views expressed in this report accurately reflect my views and that no part of my compensation was, is, or will be directly related to the specific recommendation or views contained in this report.

## **Valuation**

Our 12-month price target for NSTG reflects an enterprise value (using projected levels of debt and cash) that is ~3.5x our revenue forecast for the twelve months ended June 2015. We prefer revenue multiples for companies not yet meaningfully profitable. This multiple is consistent with the life science tools and diagnostics peer group median EV/FTM revenue, which we believe appropriately balances NSTG's greater revenue growth prospects with commercialization risks in diagnostics.

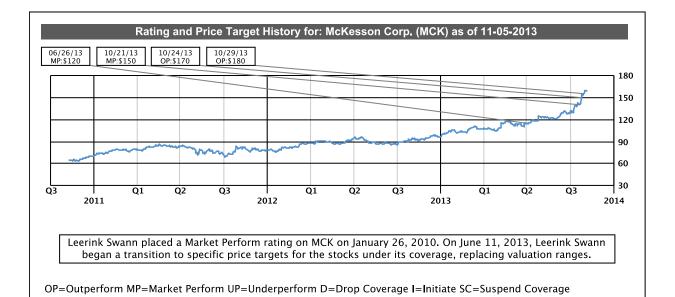

# **Risks to Valuation**

Risks to our price target for NSTG include, but are not limited to: Prosigna commercialization uncertainty in both the U.S. and Europe, competition, and tightening research budgets. While we model the company raising equity in 2014 to help fund operations, its ability to tap the equity markets or obtain additional funding may be a potential uncertainty.

	Distribution of Ratings/l	nvestment Bankin	g Services (IB) a		rv./Past 12 Mos.
Rating		Count	Percent	Count	Percent
BUY [OP]		111	64.90	27	24.00
HOLD [MP]		60	35.10	0	0.00
SELL [UP]		0	0.00	0	0.00

# **Explanation of Ratings**

Outperform (Buy): We expect this stock to outperform its benchmark over the next 12 months.

<u>Market Perform (Hold/Neutral):</u> We expect this stock to perform in line with its benchmark over the next 12 months.

<u>Underperform (Sell):</u> We expect this stock to underperform its benchmark over the next 12 months. The degree of outperformance or underperformance required to warrant an Outperform or an Underperform rating should be commensurate with the risk profile of the company.

For the purposes of these definitions the relevant benchmark will be the S&P 600® Health Care Index for issuers with a market capitalization of less than \$2 billion and the S&P 500® Health Care Index for issuers with a market capitalization over \$2 billion.

# **Important Disclosures**

This information (including, but not limited to, prices, quotes and statistics) has been obtained from sources that we believe reliable, but we do not represent that it is accurate or complete and it should not be relied upon as such. All information is subject to change without notice. This is provided for information purposes only and should not be regarded as an offer to sell or as a solicitation of an offer to buy any product to which this information relates. The Firm, its officers, directors, employees, proprietary accounts and affiliates may have a position, long or short, in the securities referred to in this report, and/or other related securities, and from time to time may increase or decrease the position or express a view that is contrary to that contained in this report. The Firm's salespeople, traders and other professionals may provide oral or written market commentary or trading strategies that are contrary to opinions expressed in this report. The Firm's asset management group and proprietary accounts may make investment decisions that are inconsistent with the opinions expressed in this report. The past performance of securities does not guarantee or predict future performance. Transaction strategies described herein may not be suitable for all investors. Additional information is available upon request by contacting the Publishing Department at One Federal Street, 37th Floor, Boston, MA 02110.

Like all Firm employees, analysts receive compensation that is impacted by, among other factors, overall firm profitability, which includes revenues from, among other business units, the Private Client Division, Institutional Equities, and Investment Banking. Analysts, however, are not compensated for a specific investment banking services transaction.

Leerink Swann Consulting LLC, an affiliate of Leerink Swann LLC, is a provider of evidence-based strategy and consulting to the healthcare industry.

In the past 12 months, the Firm has received compensation for providing investment banking services to NanoString Technologies.

Leerink Swann LLC makes a market in NanoString Technologies.

Leerink Swann LLC is willing to sell to, or buy from, clients the common stock of McKesson Corp. on a principal basis.

Leerink Swann LLC has acted as a co-manager for a public offering of NanoString Technologies in the past 12 months.
